DETAILED ACTION

Allowable Subject Matter

Claims 1-11, 13-26 are allowed

The following is an examiner's statement of reasons for allowance:

Amended claims 1-11, 13-26 are considered allowable since when reading the claims in light of the specification, as per MPEP § 2111.01, In re Sneed, 710 F.2d 1544, 1548, 218 USPQ 385 (Fed. Cir. 1983), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in independent claims 1,9 and 13.

Particularly, the prior art of record fails to teach or fairly suggest "an allocating step in which the device or another device that configures the production line allocates components to be mounted, to each component mounting machine, in such a manner that mounting time at each component mounting machine is equalized, on the basis of the response obtained in the possibility obtaining step." as recited in claim 1, in combination with the remaining features and elements of the claimed invention.

The prior art of record also fails to teach or fairly suggest "an allocating section, which allocates components to be mounted, to each component mounting machine, in such a manner that mounting time at each component mounting machine is equalized, on the basis of the response obtained in the possibility obtaining section." as recited in claim 9, in combination with the remaining features and elements of the claimed invention.

Finally, the prior art of record fails to teach or fairly suggest
“ an actual production information obtaining step of obtaining actual production
information regarding a state after actual production start from each component
mounting machine” as recited in claim 13 in combination with the remaining features
and elements of the claimed invention.

Any comments considered necessary by applicant must be submitted no later
than the payment of the issue fee and, to avoid processing delays, should preferably
accompany the issue fee. Such submissions should be clearly labeled "Comments on
Statement of Reasons for Allowance.
